Sole makers of Wagons with the
VERTICAL STEEL PLATES.
The maximum of strength, the minimum of weight,
obviating all spread of the axie, a prevailing source of
annoyance to those using road wagons.
See certificate from General McClellan:

New York, June 1, 1871.

Gentlemen:

I have carefully examined your Patent Vertical Steel
Plate Axie. I find that the addition of the Vertical Plate
renders the axie about two and a half (2%) times as stiff
as it would be without it.

Very respectfully,

GEORGE B. McCLELLAN.
